STEEL DOOR MANUFACTURER RECEIVES ADDITIONAL HURRICANE PRODUCT APPROVAL

Miami-Dade County Approves Next Door Company's Outswing Steel Entrance Door

Miami, Florida USA – Next Door Company announced today they have received another NOA from Miami-Dade County for product approval of their Outswing Steel Door & Frame Assembly.

Miami-Dade County Product Control Section, the governing body for the use and suitability of construction materials, issued NOA No. 14-0211.14 to Next Door Company. The NOA serves as official approval that Next Door Company's Flush Steel Door single and double door up to 8'0" X 8'0" meet MDC building code and complies with the Florida Building Code, including the High Velocity Hurricane Zone.

The Steel Door & Frame Assembly /PSF 75 compliments other NOA products offered by Next Door Company, which prevent penetration of a building's envelope during extreme weather conditions.

Next Door Company's headquarters and manufacturing plant are located in Miami, Florida. The Company manufactures performance-based steel doors and door frames that are used in commercial and institutional construction, and are sold throughout the United States and internationally.
